

We can only attempt to describe...
what can only be experienced.

Unveiled in late 2003, an original Dale Chihuly glass canopy suspends above the SoHo Metropolitan Hotel entrance for hotel guests and the general public to appreciate. The custom-designed installation of 80 brilliant, complex, hand-blown, glass shapes and dazzling colour combinations is the only Chihuly artwork in Toronto visible from the street. As the only hotel to boast such a masterpiece, the SoHo Metropolitan distinguishes itself yet again by offering guests unparalleled luxury and indulgence in the finer things life has to offer.
